

■ Army of Solana Incinerators (\$FIRE)

Mission

The \$FIRE movement is dedicated to showcasing the power of burning tokens as a value driver and cultural force within Solana. By creating an Army of Incinerators, we commit to daily burns, reducing supply, and building trust.

Tokenomics

- Supply: 69,000,000 \$FIRE (or 10,000,000 depending on launch)
- Daily Burn: 150,000 tokens manually burned for the first 7 days
- Liquidity: Initial pool backed by founder and community (\$1 personal USD as proof)
- No Dev Tax: 100% fair launch, no hidden wallets

Utility & Culture

- Burn Culture: Transparent daily burns, community-led
- Trust Layer: Anti-rug symbol in Solana memes
- Community First: Meme-driven hype and culture
- Gateway Token: First meme in the Trust Architect ecosystem

Roadmap

Phase 1 – MVP Launch

- Website + Burn Tracker
- Launch on Pump.fun or BonkPad
- Manual burns announced daily

Phase 2 – Growth

- Build brand with memes & partnerships
- List on Solscan, DexScreener, Birdeye
- NFT Incinerator Badges

Phase 3 – Ecosystem Expansion

- Integrate with Sol Incinerator
- Cross-token burn events
- Bridge to other meme ecosystems

Vision

We believe memes with real action last longer. Burning is our action. \$FIRE proves that supply reduction + community culture = lasting value.
